The onion, a vegetable entering materially into the domestic economy of the civilized world, universally esteemed healthy, that played no more part in the support of our soldiers during the late war, here in New Mexico attains its greatest perfection. In this deep alluvial soil, replenished annually by mountain wash, it is tickled to a weight of two pounds solid meat and flavor of corresponding volume. The truth of this is attested by barrels on sale at Hiltz's and in other parts of the city.

WANTED, two or three compositors at the GAZETTE office to-day and Monday. Apply this morning.
